

# Qonto

## General power of attorney

Mandate of delegation of powers

# General power of attorney

I hereby:

First name	
Surname	
Date of birth	
Position	

In my capacity as Corporate officer of the entity:

Legal name	
Registration country	
Registration number	

(The « Principal »),

**Authorize:**

<b>First name</b>	
<b>Surname</b>	
<b>Date of birth</b>	

(the « Agent »),

To open a payment account within the Qonto Platform on behalf of the organization, act as the account Owner and perform any useful operation on this account, including:

- View and export transactions and account information
- Entry and validation of domestic and international transfers
- Creation and management of payment cards
- Cheques cashing
- Account closing requests
- Manage users authorizations on the account

The operations carried out by the Agent engage the entity towards OLINDA.

To this extent, the Principal requires OLINDA to create a user account for the Agent as well as to generate strictly personal credential. It is the responsibility of the Principal to notify OLINDA of the termination of the power by registered letter with acknowledgment of receipt. Until the termination has been duly formalized, the power of attorney remains valid and OLINDA's liability can not be sought.

The Principal declares that he is not personally liable for any legal or judicial prohibition or incapacity.

This power of attorney is governed by French law and subject to the jurisdiction of the Paris Court of Appeal.
